

Meet the Partner Families of Silver Maple Ridge!

We are excited to announce the first six partner families who will be a part of the phase I building process at Silver Maple Ridge. Donnie & Cierra and Irine (top pictures) are the first two families to start the excavating process over the last few weeks. In the following weeks, Farkhod & Manzurakhon, and Indra (middle), and then Amber & Stephen, and Laurenthia (bottom) will start their foundations as well.

“We will be building these in cycles. We’ll start the first six projects, then we will build another six and then we’ll build the final four. And the best part about this project is this land behind us has been approved by the city of Akron planning commission as the first new city of Akron park in over 40 years.” says Rochelle Sibbio, President and CEO of Habitat for Humanity of Summit County.

As these families start to prepare, their excitement continues to grow! They are working hard by taking homeownership classes, volunteering, and building their sweat equity in preparation for homeownership. This project will include 16 new, affordable homes and a new city of Akron Park. This will be the biggest project in Habitat for Humanity of Summit County’s history! Thank you to all who are supporting our mission of a world where everyone has a decent place to live. Stay tuned for exciting updates all 2024!

We are proud to support veterans!
We are proud to serve Summit County veterans who have sacrificed for our country. Through our partnership with Owens Corning, veterans receive donated roofing and labor for their home repair. Scan the QR to learn more!

In partnership with the University of Akron, each ticket purchased through this link to the University of Akron vs Bowling Green football game on 10/5/24 includes a \$4 donation. Donations will support Habitat for Humanity of Summit County's Neighborhood Revitalization programs designed to increase access to affordable homes, help homeowners remain in homes they own, improve financial stability, promote equity amongst historically marginalized groups, and the reduction of derelict and poverty housing, leading to more vibrant communities.
